To Whom It May Concern:

The Culver City Council voted to support Measure 9-73, which would include the expansion of Central Oregon Community College programs in Jefferson County.

The words ***Industry – Education – Agriculture – Recreation*** describe the values of the Culver community. A strong educational system has been and continues to be a vital element in the community. In order to provide local educational opportunities, Central Oregon Community College needs voter support. A local Community College facility would provide the convenience and flexibility needed by the area workforce and families to continue their higher education. Workforce training programs will create skilled workers for a variety of employment opportunities.

We encourage voters to vote YES on Measure 9-73.

Sincerely,

Mayor Shawna Clanton
Councilor Ty Merrill
Councilor Nancy Diaz
Councilor Wayne Johnson
Councilor Thelma Krueger
Councilor Amy McCully
Councilor JB Schumacher
